

Plant Start

Concentrated Liquid Plant Food

Guaranteed Analysis	8-27-2
Total Nitrogen (N)	8.0%
8.0% Ammoniacal Nitrogen	
Available Phosphate (P ₂ O ₅)	27.0%
Soluble Potash (K ₂ O)	2.0%
Derived from ammonium polyphosphate and potassium phosphate.	
ALSO CONTAINS NONPLANT FOOD INGREDIENTS: 3% Seaweed Extract (<i>Ascophyllum nodosum</i>)	

Plant start is a highly concentrated liquid plant food formulated with compounds containing plant hormone precursors, natural plant amino acids, plant vitamins and anti-stress substances. This combination promotes early growth and healthy root systems which will establish the plant quicker and in turn promotes vigorous top growth.

“The addition of phosphorous can often result in more rapid early-season growth. Better early-season growth can lead to better stress tolerance, pest avoidance, and field uniformity...” NC State University Tobacco Team
