

AP AgriPOP Plus

Premium Liquid Starter & Foliar Fertilizer 1 - 3gal per Acre

AP AGRIPOP PLUS DELIVERS FAST, AVAILABLE N-P-K TO SUPPORT EARLY ROOT DEVELOPMENT, VIGOR, AND UNIFORM STANDS. DESIGNED FOR IN-FURROW, STARTER, AND FOLIAR APPLICATIONS TO MAXIMIZE NUTRIENT AVAILABILITY DURING COOL, WET, OR STRESSFUL CONDITIONS.

AgriPOP Plus Benefits

- Fast-acting starter and foliar N-P-K
- Promotes early root development
- Supports uniform emergence and stand establishment
- Improves nutrient availability in cool, wet soils
- Low salt index for plant safety
- 100% orthophosphate phosphorus for immediate uptake

Recommended Crops

- Corn
- Soybeans
- Wheat
- Small Grains
- Vegetables
- Potatoes
- Other Row Crops

Manufactured For:
Harvey Fertilizer & Gas Company
1291 US Highway 258 N
Kinston, NC 28504
(252) 522-0698

Guaranteed Analysis

Total Nitrogen (N)6.0%
• 6.0% Ammoniacal Nitrogen
Available Phosphate (P_2O_5) 20.0%
Soluble Potash (K_2O).....6.0%

CONTAINS NON-PLANT FOOD INGREDIENTS

Fulvic Acid 0.04%

Derived from: ammonium hydroxide, phosphoric acid, potassium acetate and potassium hydroxide. Fulvic Acid derived from Leonardite

Application Rate Recommendations

In-Furrow / Starter

- Rates vary by row width, soil CEC, and organic matter
- Typical range: 1-3 gal/acre

Foliar

- 1-3 gal/acre
- Corn: V3-V5
- Soybeans: V4-V6, repeat near pod set if needed
- Small grains, vegetables, and other row crops as needed

*Optimal rates vary by soil, crop, and tissue test results.

Mixing and Handling

1. Fill tank halfway with water and start agitation
 2. Add adjuvants → pesticides → fertilizers
 3. Add remaining water
 4. Maintain agitation throughout application
 5. Jar test all mixes prior to application
- ⚠️ Not compatible with UAN solutions (28% or 32%)
