

AP Grounds Keeper

AP Ground Keeper

paraffinic oil, non-ionic surfactant package, and a proprietary sticker package.....	100%
Total.....	100%

Compatibly and Mixing:

AP Grounds Keeper is made to be used with a wide range of herbicides. Primary pre-emergent herbicides. For best mixing results, fill the spray tank half full, add herbicide components, and add AP Grounds Keeper last and provide good agitation until tank is full.

Application rates:

AP Groundskeeper is used at 2 – 4 quarts per 100 gallons of spray solution (0.5 – 1.0% v/v) to simplify that it can be recommended at 1 pt. per acre.

Knowledge to sell this product:

AP Grounds Keeper is a multifunctional spray adjuvant formulated for use with herbicides, insecticides, fungicides, plant growth regulators, and fertilizers. AP Grounds keeper is used to hold residual herbicides up in the soil profile to extend activity. This product can also be used in place of crop oil. Adding AP Grounds Keeper to the spray tank may reduce evaporation and drift.

Look for opportunities:

Corn: preemergent herbicides behind the planter and layby applications.

Soybeans. Preemergent herbicide applications behind the planter. AP Grounds Keeper pairs well with gramoxone and residuals.

Cotton: Preemergent herbicide applications behind the planter.

Sweet Potato or Tobacco: applications after setting
